## MEMORANDUM

Date: September 19, 2023

To: Jackson County Board of Commissioners

From: April Alm, Transit Director

Subject: Public Hearing for FY25 5311 Administrative, 5310 Operating, and Combined Capital Community Transportation Program Grant Applications

The FY25 Community Transportation Program Grant Application Public Hearing is scheduled for September 19, 2023 at 6:25 pm. One public hearing is acceptable for all three Community Transportation Program Grant Applications. As the applicant, Jackson County Transit will be seeking permission to apply for the Public Transportation Program funding, enter into agreement with the North Carolina Department of Transportation, provide the necessary assurances and the required local match.

The North Carolina Department of Transportation Integrated Mobility Division (IMD) handles grant applications with the Federal Transit Administration for mass and community transportation programs. On behalf of rural communities, the NCDOT IMD completes applications for formula grants for rural areas (Section 5311 Admin) and formula grants for the enhanced mobility of Seniors & Individuals with Disabilities (Section 5310 Operating) as well as capital improvements for transit systems. This allows rural communities to work directly with their state rather than needing to apply directly for funding through the Federal Transit Administration.

The 5311 Administrative grant program helps to subsidize the administrative costs of running a transportation system which includes administrative salaries and benefits as well as office supplies, uniforms, training and marketing.

The 5310 Operating grant program supports transportation operating costs for the elderly and individuals with disabilities.

The Combined Capital grant program allows Community Transportation systems the opportunity to apply for funding to maintain a public transportation system fleet and other capital needs. This capital project consists of three replacement vehicles (one Raised Roof with lift and two minivan/crossover vehicles), lettering and logos for each vehicle, one propane conversion and a 6 camera IP Camera Surveillance System. All vehicles and surveillance equipment are being requested due to having met the end of their useful life and meet the minimum requirements for

replacement with NCDOT IMD.

The total estimated amount requested for the period July 1, 2024 through June 30, 2025.
